

Tree Frog Treks Afterschool Enrichment Classes at Montclair School!

Tree Frog Treks teaches fun interactive in-school and after-school science enrichment programs that introduce kids to concepts in biology, chemistry, physics, earth sciences and natural history while allowing them to meet and hold live rescued reptiles and amphibians.

8 Week Session of Weekly Enrichment Classes Starting This Fall!

Friday | 2:50-3:50 pm

Classes now enrolling for 1st-5th grade

\$120 per child for the full 8 week session

Class Dates: Sept 24 – Nov 19 * No class 10/8

Fall 2010 Course Description: Wild Animal Explorer!

Join Tree Frog Treks for our Animal Explorer program! We will learn about the five classes of vertebrates (fish, amphibians, reptiles, birds and mammals) by meeting live animals, studying skins, skulls, and specimens, and exploring the natural world. Hold frogs and do the frog walk! Find out about the secret lives of your own pets! Touch a Red-tailed hawk wing and talons, learn bird calls, and use binoculars and a spotting scope to see our feathered friends up close. Find out which bears used to live in San Francisco, and how they can sleep all winter without eating. Develop your powers of observation, make fun take-home art projects, and come face-to-face with frogs, salamanders, lizards, snakes and our whole cast of creepy, crawly co-workers!
